It’s about living.™
WE ARE EXPERTS IN THE ART OF LIVING. Our philosophy is to empower our patients and families by providing the tools and support necessary to embrace life. We don’t focus on the finality of death; we focus on the practical side of living. Our job is to assist our patients and families through the physical, emotional, and spiritual challenges of life’s final transition.

TRANSITIONS HOSPICE COMMANDMENTS

All of our team members pledge to fulfill the Transitions Hospice Commandments. These three fundamental principles help to ensure each patient and family receives the focused and individualized care they deserve.

1

COMMIT TO HOSPICE™

By committing to hospice, each team member pledges to dedicate themselves to their patients and the uncompromising demands of hospice care. Our staff is always available. We will tend to our patients as often as needed regardless of their location — day or night.

2

EACH PATIENT IS UNIQUE™

Transitions believes care plans should never be “one size fits all”. Understanding that all of our patients have their own personal needs enables us to develop a customized plan of care that respects their specific wishes.

3

ALWAYS DO THE RIGHT THING™

Doing the right thing and doing the easiest thing are rarely the same. When it comes to hospice care, team members are committed to continually dedicate the time and energy necessary to always do the right thing.
The reality of a terminal illness or progression of a disease can be overwhelming for both the patient and their family. Our hospice is designed to help you through the process of ACCEPTANCE. Transitions understands that “acceptance” does not mean giving up — neither does hospice. It is our belief that acceptance is the very important first step in recognizing the unique aspects of your illness.

Knowledge is power. Because every disease progresses and manifests itself differently, the more you know about your condition, the better prepared you’ll be for the changes that await you. Transitions’ interdisciplinary team, led by our physicians, will EMPOWER you by developing a plan to help you manage the symptoms associated with your illness.

Comfort of support and genuineness of service are what you can expect from Transitions. You are not on this path alone — we are there with you. Our 24/7 support offers you the PEACE of mind that care is always no more than a phone call away. Prolonged illness is stressful on individual and family resources. We assist you with these challenges by providing support, such as compassionate caregivers and two shifts of professional nursing staff, to help ease these difficult times.

You are in charge of your life, free to live it under your terms. This FREEDOM is the objective of Transitions’ philosophy. Where you want to live, how you want to live, and the manner in which you are cared for — these are your decisions. Think of us as your “life concierge”. Tell us your plan and we will serve to guide you along the path you have chosen.

WE ARE EXPERTS IN THE ART OF LIVING. Our philosophy is to empower our patients and families by providing the tools and support necessary to embrace life. We don’t focus on the finality of death; we focus on the practical side of living. Our job is to assist our patients and families through the physical, emotional, and spiritual challenges of life’s final transition.
